CB23F35: Low-Code Application Development using Zoho Creator

Name: Devadharshini G

Register No.: 240701108

Ex. 11: Portal User

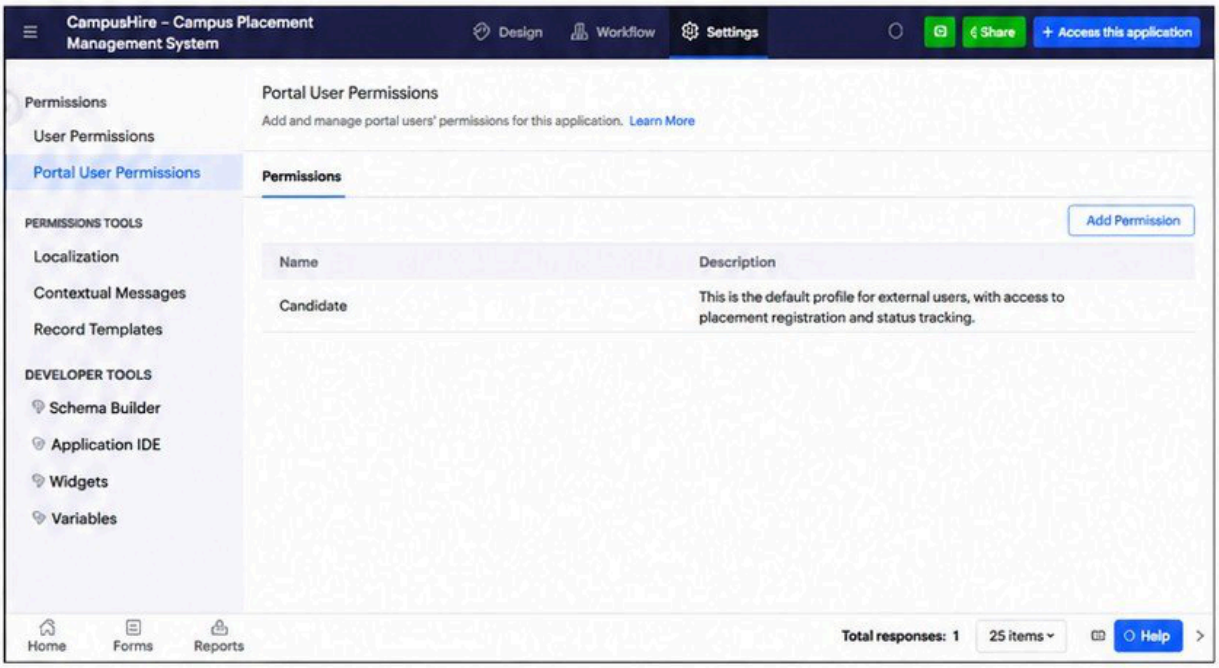

AIM:

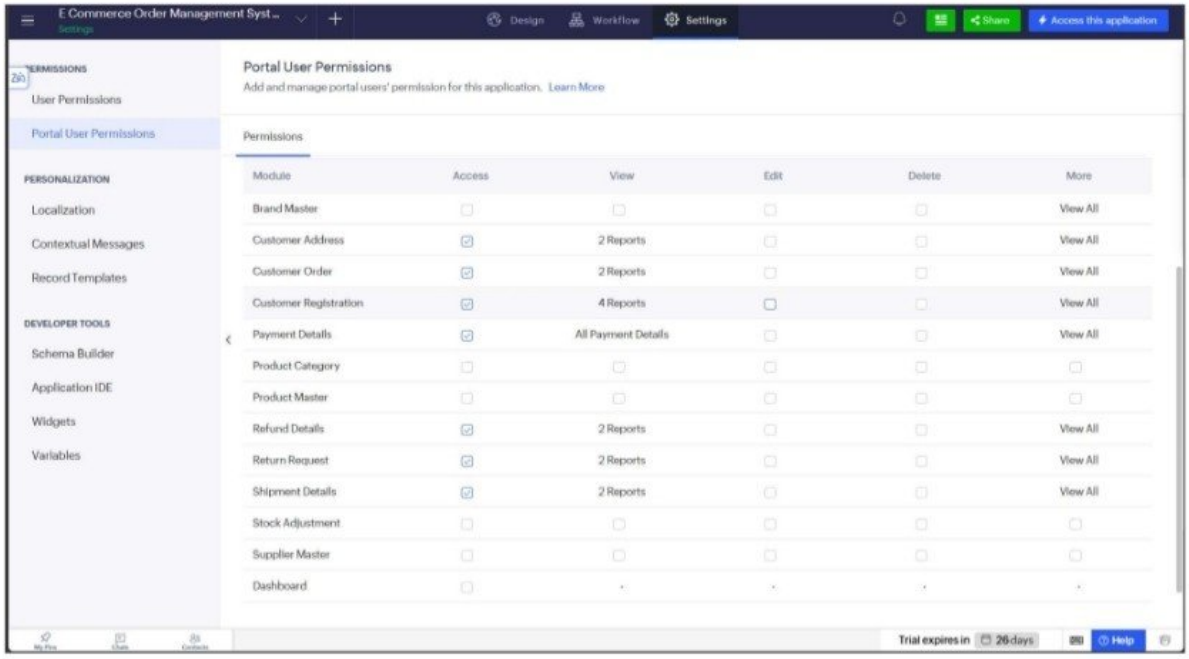

To create and configure portal users in Zoho Creator to provide external users with secure access to an application and its permitted forms, reports, and functionalities.

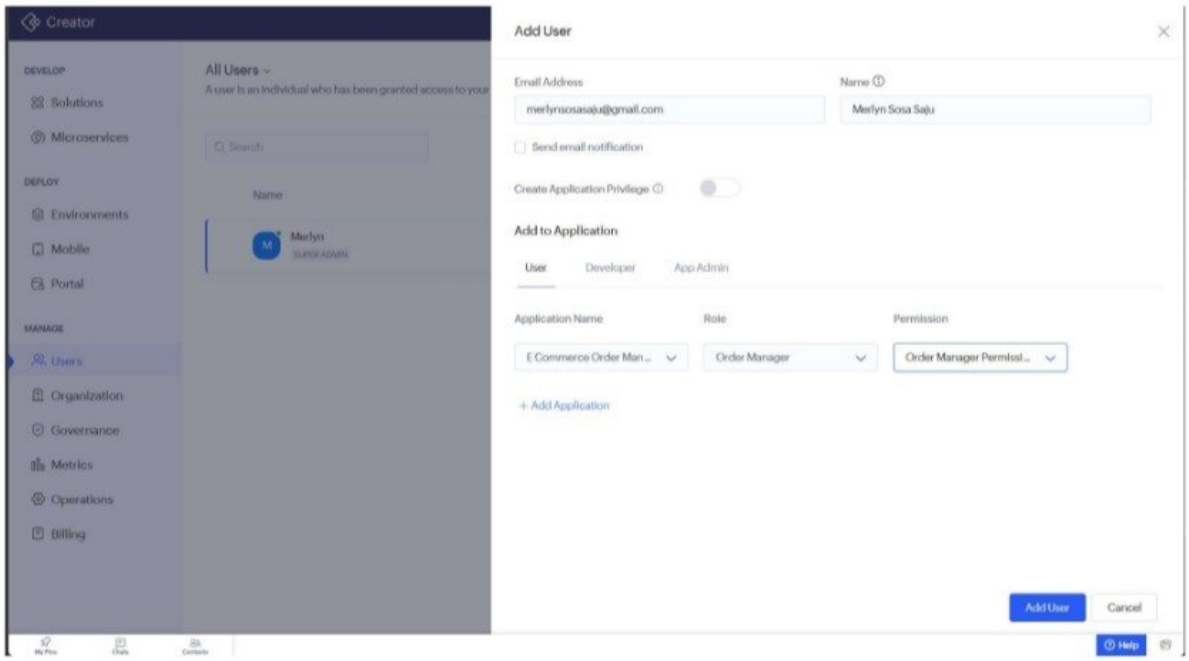

PROCEDURE:

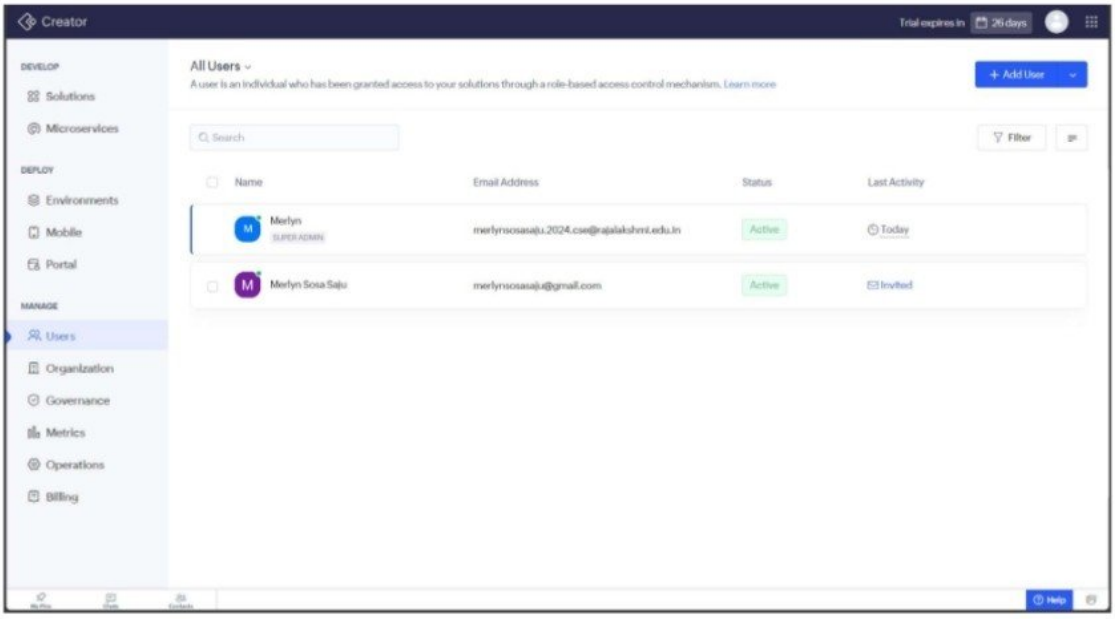

1. Open the application in Zoho Creator and navigate to the Users and Permissions or Portal section.
2. Create a portal by providing the required portal name and configuring its settings.
3. Navigate to the portal user management section and select the option to add a new portal user.
4. Enter the user's details, such as name and email address, and send an invitation.
5. Assign the appropriate permissions and access privileges to the portal user.
6. Verify the portal user's access by logging in through the portal and checking whether the permitted application features are accessible.
