CB23F35: Low-Code Application Development using Zoho Creator

Name: Devadharshini G

Register No.: 240701108

Ex. 8: Workflow

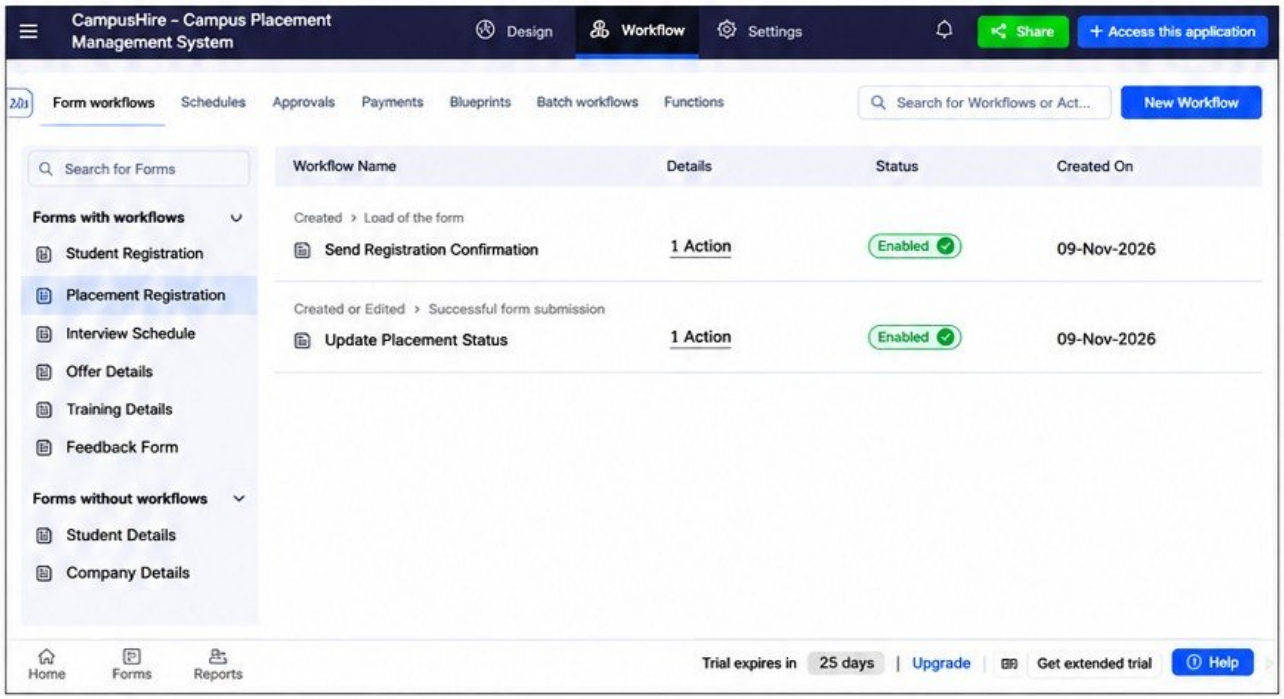

AIM:

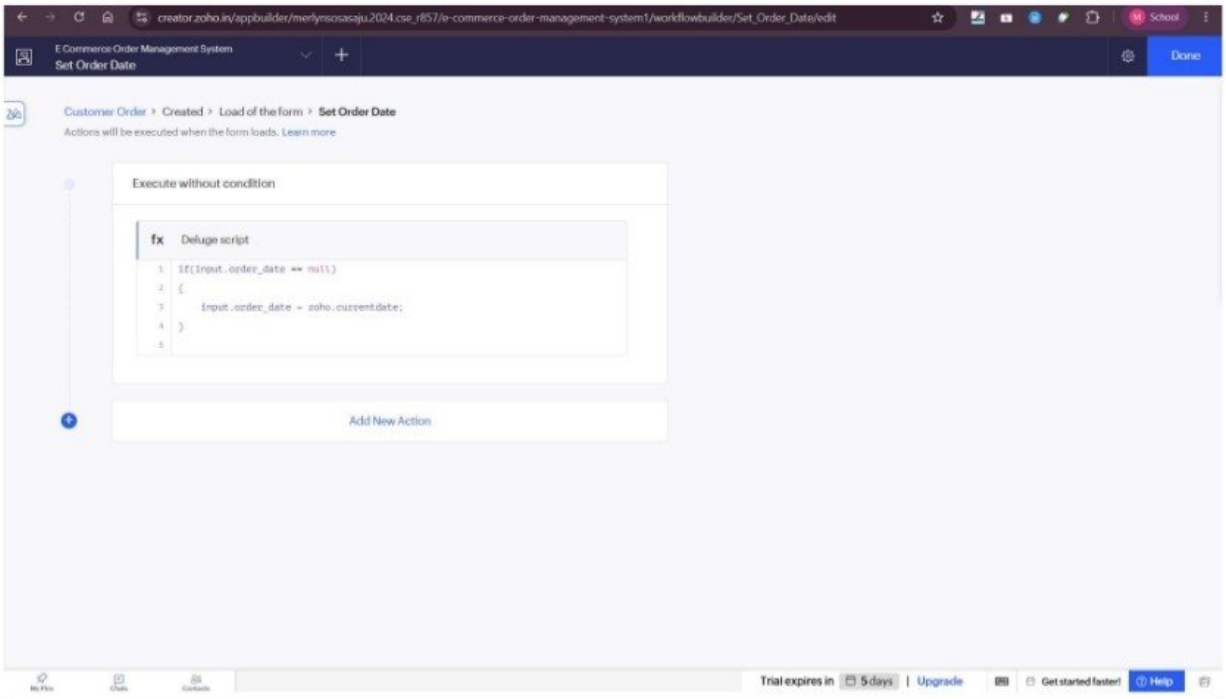

To create and configure workflows in Zoho Creator to automate tasks and perform predefined actions based on specific events, conditions, and schedules within an application.

PROCEDURE:

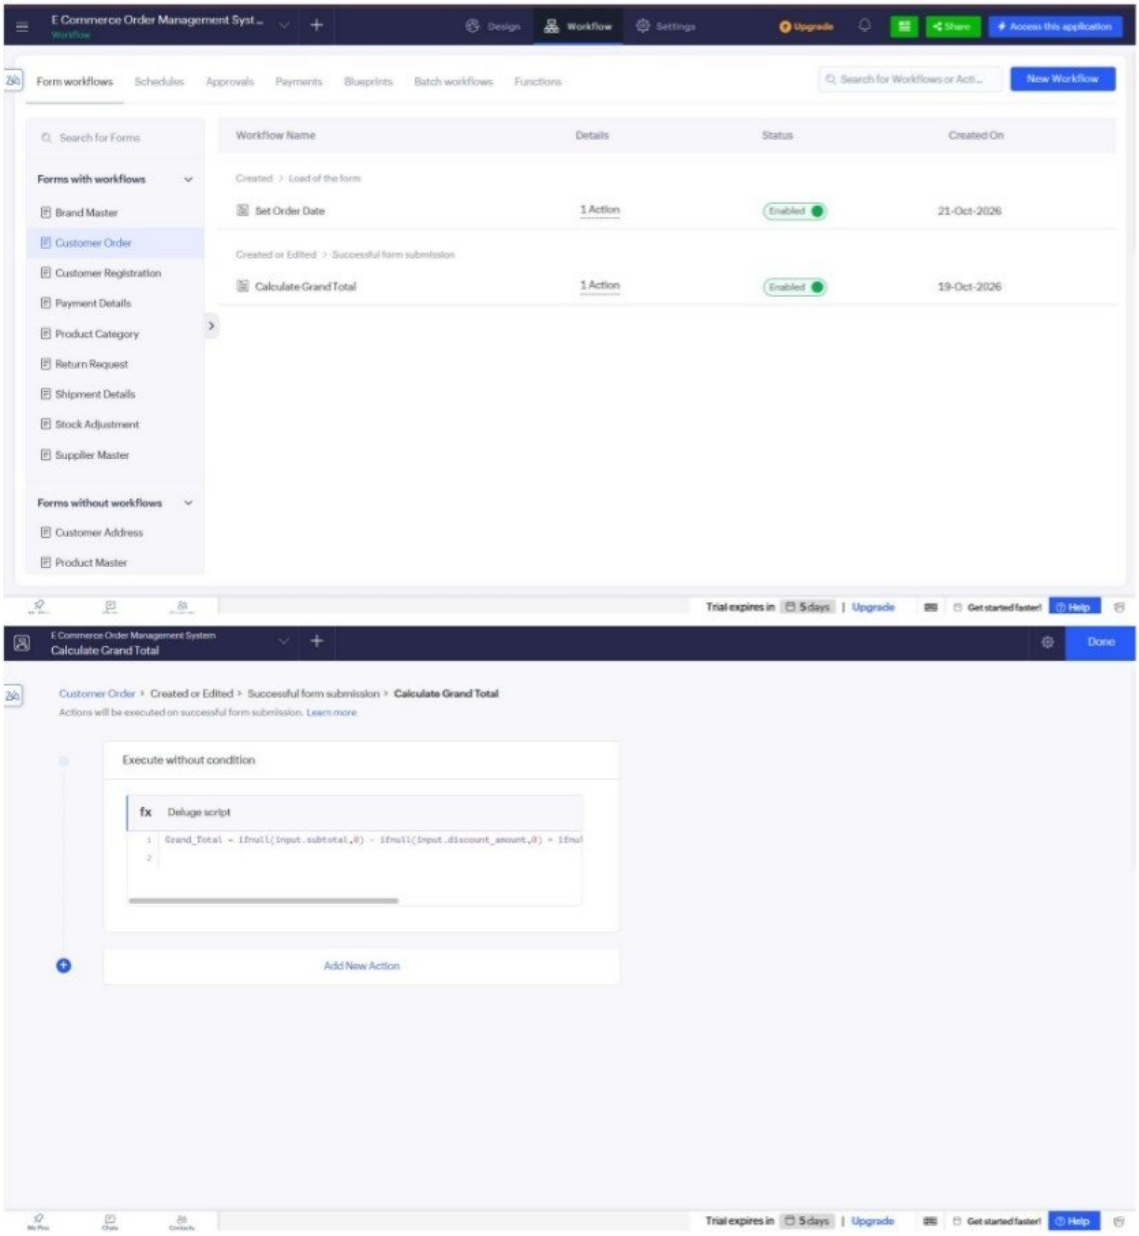

1. Create an application with the required forms and reports in Zoho Creator.
2. Click on + Add Workflow.
3. Rename the workflow to a suitable title.
4. Choose the form required, whether it should be accessed during creation or editing, and when the workflow should be performed.
5. Click on Add New Action, and choose the desired action to be performed, using deluge script or using notification and click on save.

OUTPUT:

creator.zoho.in/appbuilder/merlynsosasaju2024.cse_r857/e-commerce-order-management-system1/workflowbuilder/Set_Order_Date/edit
E Commerce Order Management System
Set Order Date
Done
Customer Order › Created › Load of the form › Set Order Date
Actions will be executed when the form loads. Learn more
Execute without condition
fx Deluge script
1 if(input.order_date == null)
2 {
3 input.order_date = zoho.currentdate;
4 }
5
Add New Action
